JONK Awards

Some of our children have been recognised for their great learning at the JONK awards in Norwich.

Jonk stands for the Joy Of Not Knowing and we try to show different things like courage, curiosity and confidence in our learning.

There were seven children who went to the awards at the King's Centre in Norwich. They received a trophy and a certificate.

One of our favourite ideas is the learning pit. If we don't know something we are stuck in the pit. We keep trying until we have learned it and then we get out the pit. So the aim of JONK is to be resilient in our learning.

New Play equipment

This September we returned to school to find that we had some new play equipment. We now have a new tunnel which we like to go through and over. In addition, we have new steppers and a log swing.

I think our equipment course is now harder (even the other year 6s agree with me!).

It's great fun and we have more bits of equipment than we had before.

Hopefully, we will be able to get even more new equipment in the future.

Some people hope that this equipment will stay the same.

Outdoor Fun: We love playing on our new equipment.

Beach trip

On Monday 10th July the whole school went on a beach trip to West Runton.

It may of taken us fifty minutes to get there but in the end we all had the best day. We had a sand castle competition an everybody won. Before we left we had ice cream and ice lollies. In the end everybody had the best time!

Quad Kids

On Friday 12th July the majority of Fox class participated in the Quad Kids event at the Sports Park in Norwich.

There were 4 activities for us to complete in : Javelin, 400 metre run, 75 metre sprint and long jump. We're proud to say that our school got the longest distance in Javelin! Overall it was brilliant!

Hockering School Through the Seasons - October 2017

It's autumn and the flowers have stopped growing and the leaves are falling off the trees. The days are getting shorter and the weather is getting gloomier.

New school dinners

Since we have been back at school, our school dinners have changed.

They are now brought to us by a different company called Chartwells.

We now have a new menu to choose from which has lots of different types of food.

However, lots of the things have stayed the same as well.

A few things that have stayed the same are fish on Fridays and roast dinner on Wednesdays.

Super Surfing

In the summer term Year 5 and 6 went on a surfing trip to Cromer Beach.

When we arrived we put on our wet suits. Then we had a warm up and a talk from the lifeguards about beach safety.

Eventually we got in the sea. We tried surfing with boards. We also had a go at life guarding and rescuing people from the water.

We went on the bus with children from Great Witchingham.

It was a really great day and was lots of fun!

Making a big splash!: Hockering children surfing in Cromer

Y6 leavers

We were very sad on the 12th of July as the Year 6s were leaving. Some children shared some memories of the Year 6s. All of the of them read a poem together. Mrs Clay shared a few words about the Year 6s. At the end they all received a Holy Bible. Their time at Hockering Primary Academy was amazing and we all hope we see them again someday.

New Green Team

This term the Green Team was elected!

All of the Green Team were ecstatic when they were chosen.

People who wanted to be on the Green Team nominated themselves and then everyone voted for who they thought would do the best job.

The following: Dem, Tallaluah, Amy, Rosa Sam and Ivy were picked. Well done to
